

Release 19.09

May 8, 2019

Agreement Express - New Features

Allow aeworkgroup in CSV Bulk Send Upload

Affected Workflow: Bulk Uploads CSV Workflows

Feature Description: Added support for “aeworkgroup” column, in addition to “aeworkgroups” column in Bulk Send CSV so the transaction created by Bulk Send can be added to the Work Group specified in the column.

Agreement Express - Enhancements

Case Reminder Email Notifications for Departments

Affected Workflow: All companies configured with Case Emails

Enhancement Description: Reminder email notifications can be sent to all users within a department that have 'send email notification' selected and reminder emails.

MV2 Enhancements

Aggregate Rewind Email for Case

Affected Workflow: All companies configured with Case Emails

Enhancement Description: It is now possible to only send one email out after executing a Rewind instead of one being sent out for each transaction in a Case.
